

Dear,

Thank you for enquiring about your wedding hair and makeup. Here at Daniel Gray we pride ourselves in providing the best quality services, and we hope that we can make your big day run as smoothly as possible. Whether you are looking for classic, romantic, retro, or contemporary style our elite team of wedding specialists can create it with ease.

At Daniel Gray we will only book your wedding hair appointments when we can have a practice run before the big day. This is a 90 minute trial run, that includes a detailed consultation including lots of pictures, your and ours, a hair cleanse, Kerastase treatment, and hair preparation for the big day. This can also be followed by a second practice if needed.

Our wedding team are able to come out to your venue, even on Sundays, or you can come in to the salon where you will be greeted with a glass of bucks fizz and shown to a private area where you and your guests can relax and prepare for the day ahead.

We also have an in house beautician who is able to travel with the stylist or provide makeup and nails in salon on the day. Please ask for further details and prices.

As many people will be inquiring and possibly booking their practice a year in advance, we will always keep you up to date with your stylists holidays and in the worst case the stylists leaving the salon. In this case another stylist would be assigned to you and a second consultation or practice would be given.

I have included a list of the services we provide here at Daniel Gray. All prices are a guide and once we have booked your wedding practice a final quote can be sent.

Thank you again, and if you have any questions please speak to our wedding co-ordinator Emma and she will be happy to answer any questions you may have.
